Then go to apple store, search “acesonic kod” then download the app.

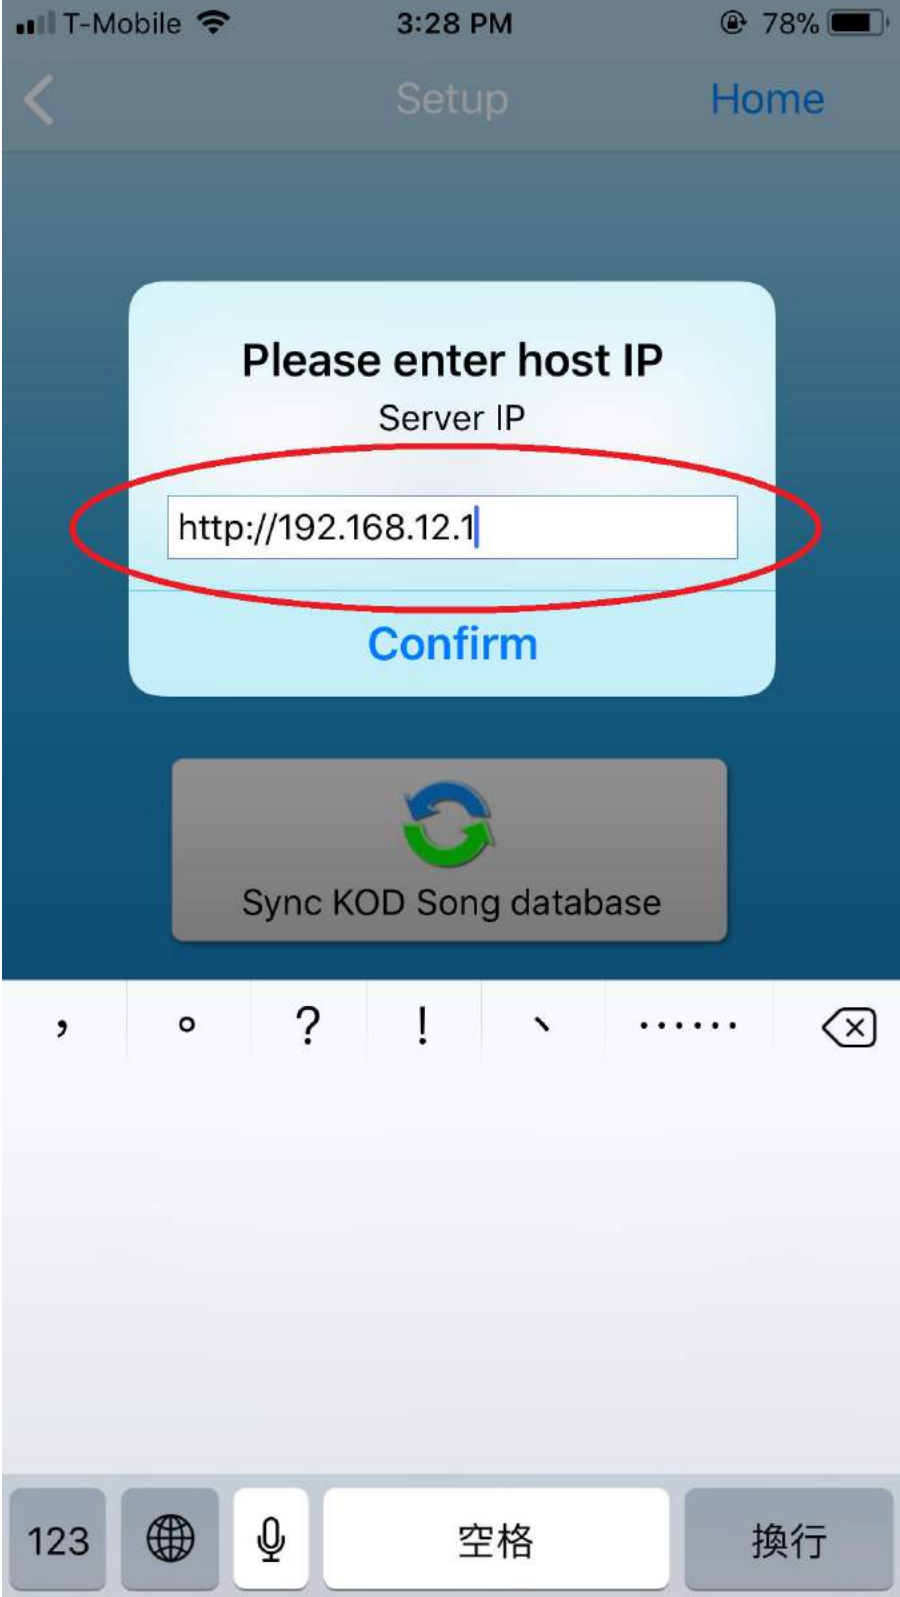

After the download complete, open the app and click “setup” in the main menu.

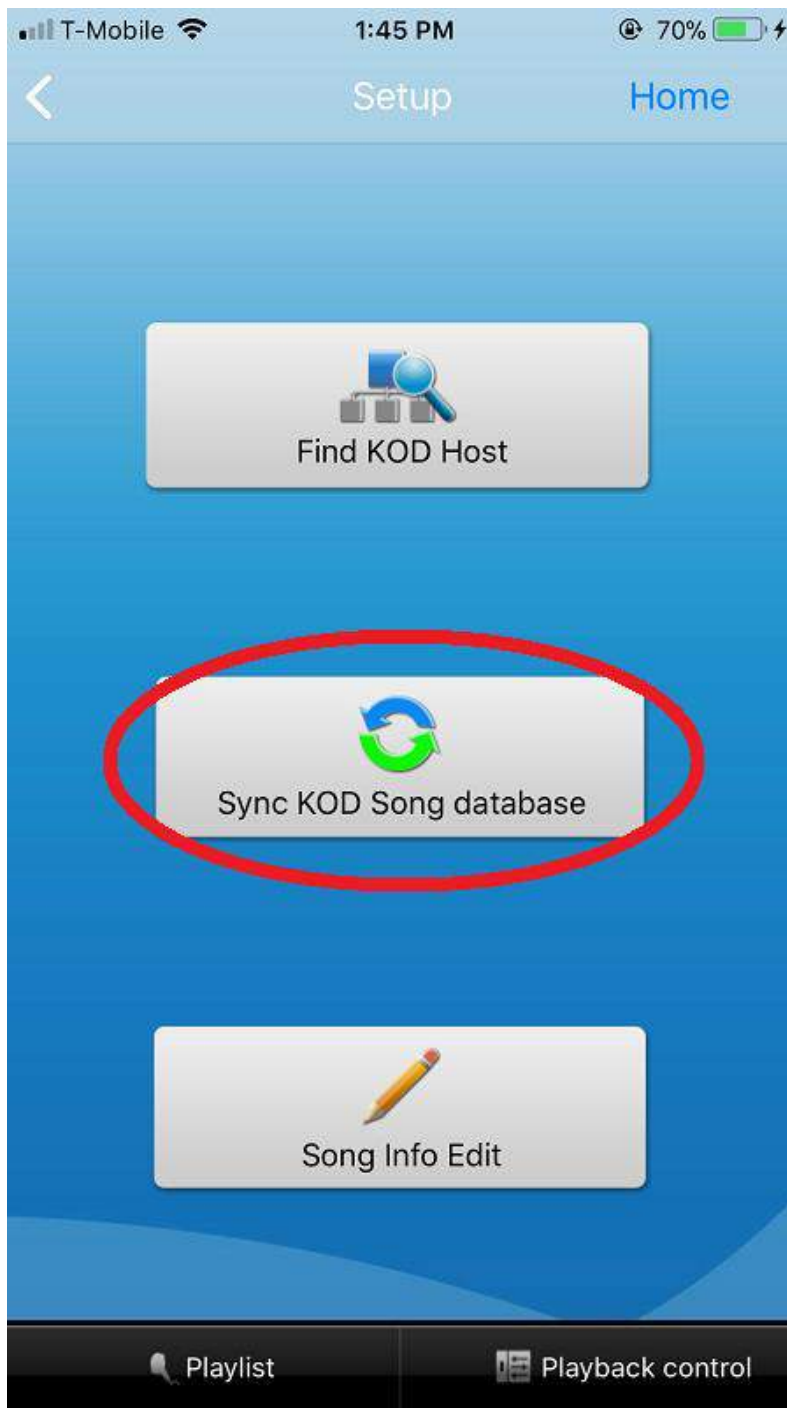

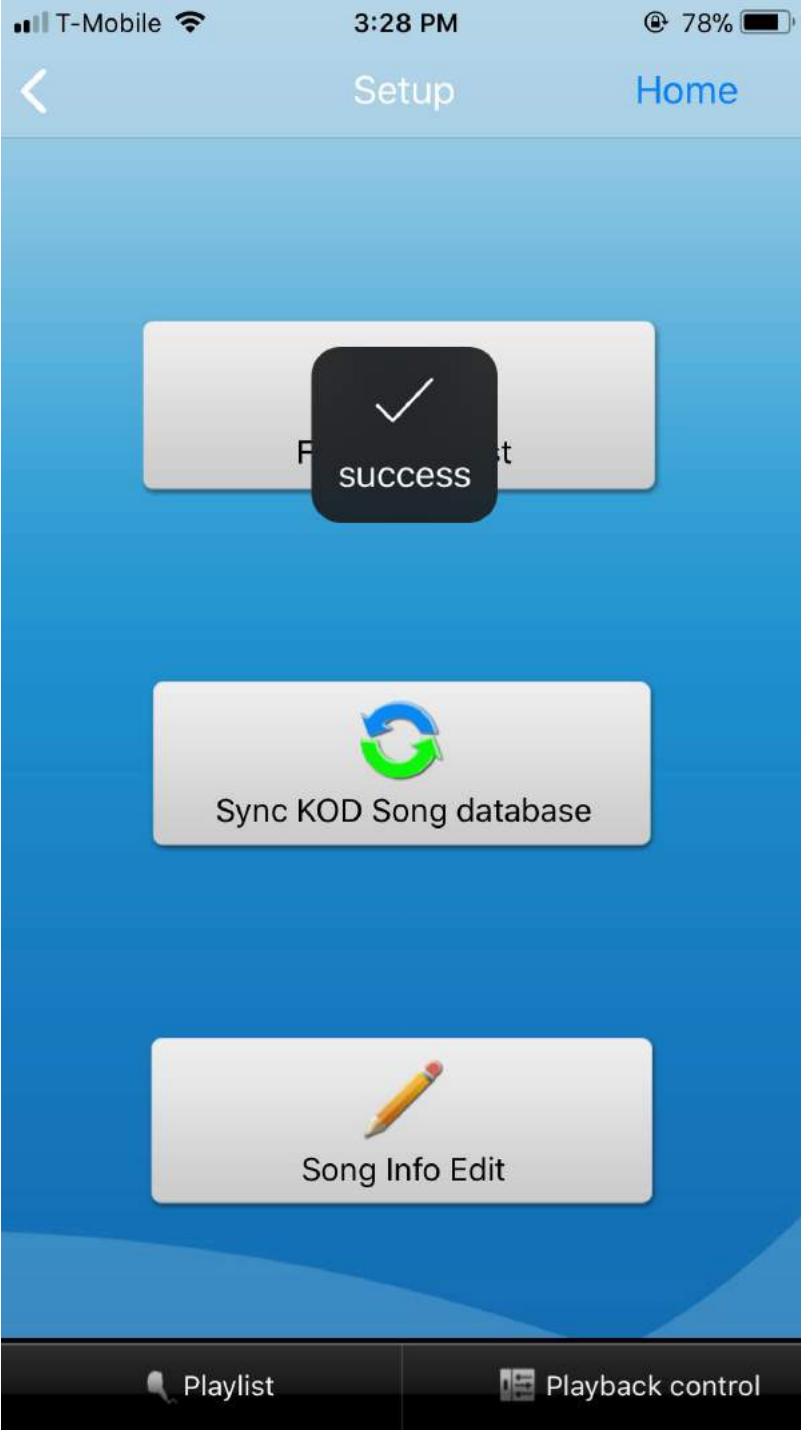

In the setup menu, click “Find KOD Host”. A pop up menu should appear at the bottom of the screen, click Auto Search, it should automatically connect to the KOD wifi. IF this does not work, Please use “manual search”. Enter IP address 192.168.12.1

Once successfully connect to host, click the “sync KOD Song Database”. Depending on how many songs that your hard drive have, it should takes 2-4 mins.

Once finished, go to “song search” in the main menu. Song list should be loaded and ready
